Kapitel 1

Stupid Things
In stupid Life
Nothing as
stupid as that
Everyone
searching for
anything nice,
but seeing just
stupid
Question and answer-
like brother and sister
Always together, but
not always seen.
Something to lead
me in this stupid territory,
it's just to remember
a soul once called Story.
The Question will always
show you its face,
the answer is hiding
there, nearby.
Ask her the question
and she will decide:
Are you allowed to see
what's inside?
Maybe you are,
but maybe you're not
Everyone's living his own
tiering shot
